Datalogger	Shine master, Enerlog	1 year
Monitor	Cloud server	1 year
Accessory	Attached components of the device	1 year

- Damage caused by natural disasters or force majeure (e.g. floods, lightning, over voltage, storms, fires, etc.).

In addition, normal wear or any other failure will not affect the basic operation of the product. Any external scratches, stains or natural mechanical wear does not represent a defect in the product. If you encounter irresistible factors and need to modify the products or system, you must contact ATESS and obtain written authorization or perform corresponding operations under the guidance of ATESS engineers.

## Warranty condition

If a device becomes defective during the agreed ATESS factory warranty period and provided that it will not be impossible or unreasonable, the device will be, as selected by ATESS:

- Repaired by ATESS, or
- Repaired on-site, or
- Exchanged for a replacement device of equivalent value according to model and age.

In the latter case, the remainder of the warranty entitlement will be transferred to the replacement device. In this case, you do not receive a new certificate since your entitlement is documented at ATESS.

Excessiveness in the meaning above exists in particular if the cost of the measures for ATESS would be unreasonable

- In view of the value that the device would have without the defect,
- Taking into account the significant of the defect, and
- After consideration of alternative workaround possibilities that ATESS customers could revert to without significant inconvenience.

Under the guidance of our company, customers return our products so that our company can provide service of maintenance or replacement of products of the same value. Customers need to pay the necessary freight and other related costs. Any replacement or repair of the product will cover the remaining warranty period of the product. If any part of the product or product is replaced by the company itself during the warranty period, all rights and interests of the replacement product or component belong to the company. Factory warranty does not include damage due to the following reasons:

- Damage caused by attempts to modify, relocate, alter or repair products;
- Damage during transplantation of equipment;
- Damage caused by incorrect installation or commissioning;
- Damage caused by failure to comply with operation instruction, installation instructions or maintenance instructions;
- Damage caused by incorrect use or operation;
- Damage caused by insufficient ventilation of equipment;
- Damage caused by failure to comply with applicable safety standards or regulations;
- Damage caused by the battery product IDEL for over 60 days and did not periodic maintenance;
